

FALL PROTECTION SOLUTION SPECIALISTS

CR-24 TEMPORARY HANDRAIL

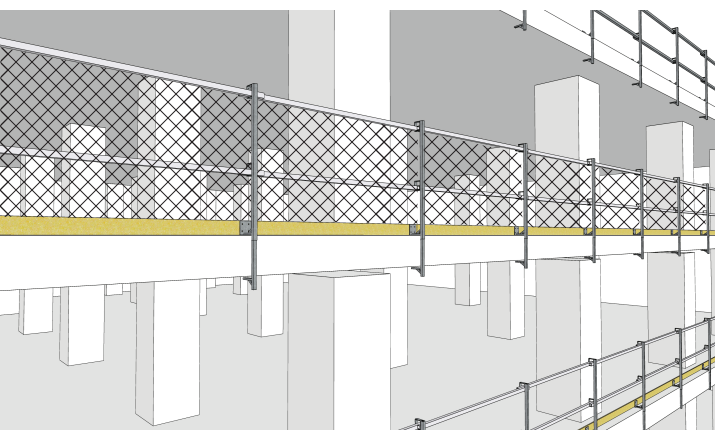

Our CR Series-24 Temporary Handrail is the perfect solution for installing handrail systems on concrete decking. This specially designed handrail system is easy to install, using just a portable impact drill. It includes screw drive adjustment and a back-up safety function to ensure complete system integrity. All of which serve to meet compliance with OSHA 1926.502 (b).

The Series-24 adjusts to fit concrete slabs from 4" to 25" thick and is compatible with metal rails or wire rope.

Features & Benefits

- More cost effective than using an all wood system
- Durable galvanized steel
- Resistant to corrosion
- Works on a wide range of concrete slabs depths
- Screw Drive Adjustment
- Back-up safety function
- Easy to move as work progresses
- Made in the USA

Safeline-FP also offers professional installation services and safety training. Please contact Safeline-FP if you have any questions or need additional information.
