

DS-1320 DEBRIS SYSTEM

Safeline-FP's DS-1320 Debris Netting System installs at the working level providing the required protection needed for the workers on the building along with the ones below. The system was designed to meet ANSI A10.37 when the system is exposed to falling debris from an upper level.

Our patent pending bracket design makes installation and jumping the system simple. That's not just what we believe, it's what we hear from our customers.

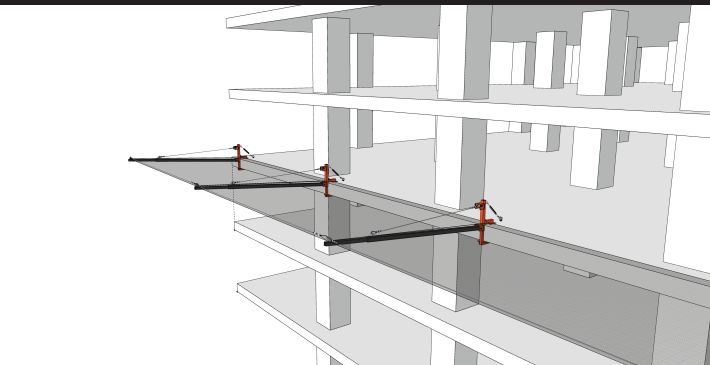

The DS-1320 benefits include:

- Extends 13' from Slab edge
- Patent Pending design offers superior clamping force
- Galvanized for durability
- Easy to install
- Made in the USA

**FALL PROTECTION
SOLUTION SPECIALISTS**

Safeline-FP also offers professional installation services and safety training. If interested in either product and/or services, please contact Safeline-FP.

This system is not rated for fall protection
